With unalienable rights

Dear Uncle Warren,

As my spiritual leader I write to you today with joy and rejoicing in the Lord our God, even Jesus Christ, it is my firm belief that you have all rights, power and ability to get the very word of God for all who desire it.

It has been my privilege to serve our community as the mayor of Colo. City, a position I never dreamed I would ever hold, but as it is now here with me I privately and personally desire to know the word and the will of the Lord in all I am doing.

Jonathan R. has retired as police chief and Heleman B. is standing in as acting chief, if the Lord has someone he would like to have in that position, it would be very helpful to get his sure word on who he desires to occupy that position, and, if the Lord has some men prepared who he wants to go into police academy their names would be helpful

We have much litigation (legal arguing) going on with people trying to take down the city especially our local marshals,

We as the town board voted in a motion to keep arguing with people through our lawyers, and I would like to get the more sure word of the Lord on how far he wants us to go in all this arguing,

It would be a real educational challenge to educate the town board members on the fact arguing never works, and without the word of the Lord our God, I do not desire to step forward in an effort to teach how to stop this nonsense, Joe T. and I are probably the only members that understand how to do this but we do not wish to run ahead of the Lord in anything.

I had the Utah AG Mark Shurtleff send a letter directly to me as Mayor of CCA trying to get me to force the Colo. City police to recognize an occupancy agreement of Bruce Wisan as a legitimate court order. To which I accepted on conditions, with 30 days to respond through a Notary, to which he is now in default. My belief is he and Tom Horn are working in collusion trying to put together some big litigation (argument) against Hildale and Colorado city

I can't imagine why the Lord has brought me forth to this position unless it is to stop all this legal arguing and contention's and take care of the accusations in an administrative process, I moved forward with the Utah AG in a private process because he addressed his letter directly to me, and as an elected official and CEO of the corporation I can operate both in public and in private, I started to include others

in the process but felt constrained of the Lord to take them back out because I felt he has his own way of dealing with them

I guess My question is, does the Lord approve of what I am doing and will I have his blessings by going forward or does he want me to stop and let him handle it a different way

I am so grateful the Lord has chosen You as his mouth piece to all the world, and I ask in earnestness that you will pray unto the Lord for Me and my (his) family that I and we might be ever and continually guided by his spirit and word to be worthy pure vessels all the days of our life's that he may use me and us all to do his perfect loving will forever and ever.

Sincerely

George M Allred
